Art Unit: 3727

Claims 1-14, 17 and 19 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention and specie, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on July 29, 2004.

Applicant's election with traverse of the specie of Group A, claims 15, 16, 18 and 20 in the reply filed on July 29, 2004 is acknowledged. The traversal is on the ground(s) that there are generic claims and that all species include air extraction steps. This is not found persuasive because the presence of generic claims and generic steps doesn't preclude an election of specie requirement.

The requirement is still deemed proper and is therefore made FINAL.

This application contains claims 1-14, 17 and 19 drawn to an invention nonelected with traverse in the reply filed on July 29, 2004. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15 and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Millasich.

Art Unit: 3727

Claims 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
